Zip upload installation method (make sure uploads up to 2MB are allowed for your hosting):

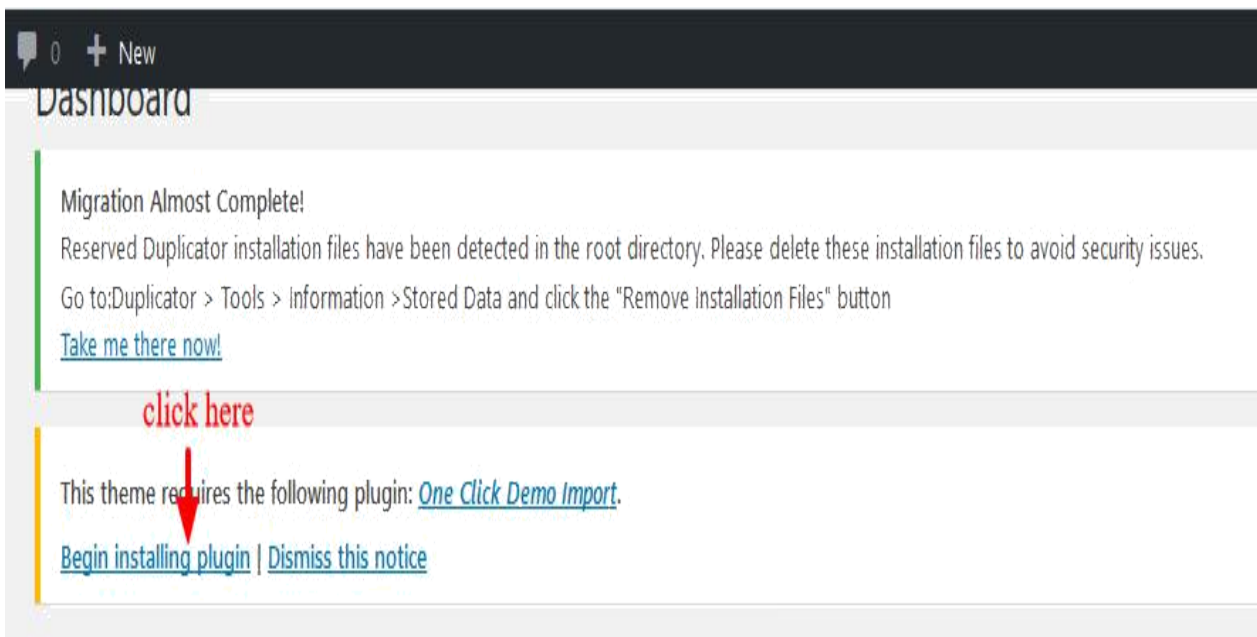

1. Installation Steps:

1. Login to your Wordpress site administrator panel and head over the Appearances -> Themes

2. Click 'Add New'

3. Choose the 'Upload' option.
4. First Activate Divi Parent Theme By Uploading a copy Available With You.
5. Install and activate Adroit Child Theme by uploading copy of child theme Zip file available with you.
6. After activating Child Theme at top you will see the notification as ' **begin installing plugin**' plugin name: '**one click demo import**'. Click on that link to install concern plugin.

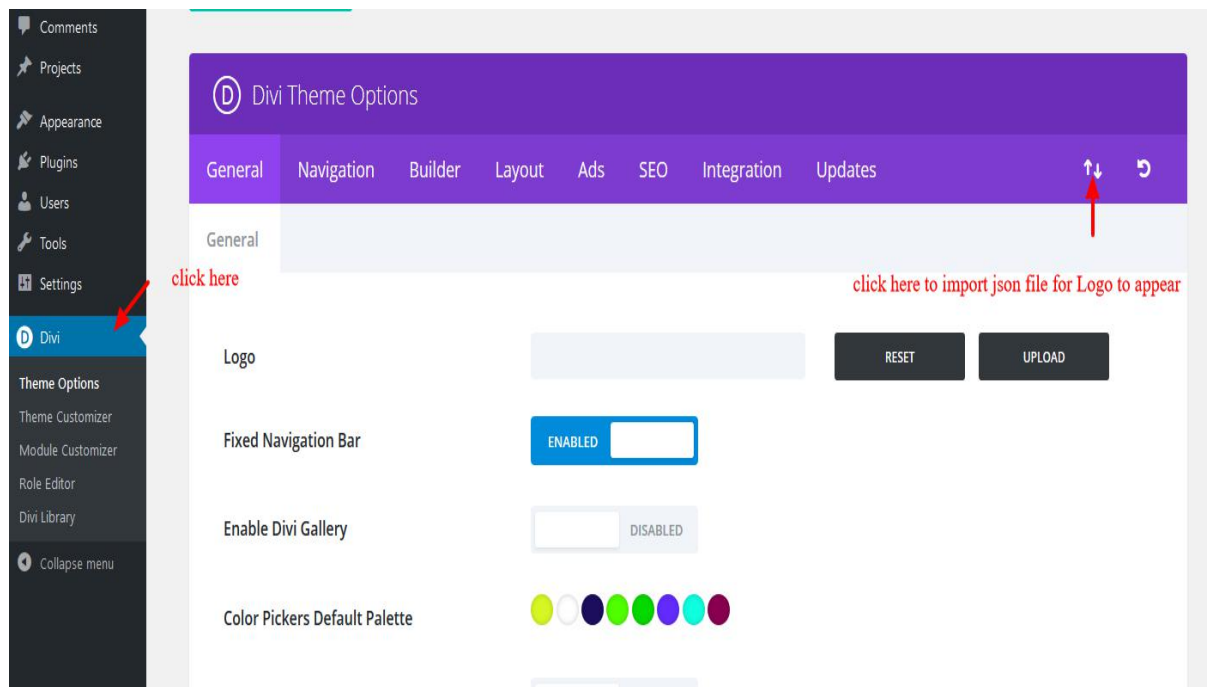

Screenshot

7. Go To "Appearance". Click on "Import Demo Data" and Click on "Import Demo Data" Button. This will import 'Adroit – Resume Template' Content into your site.

8. Go to Appearance > Menus. Assign the menu as the primary menu.

9. To Import Logo You Need Import JSON(.Json) File : Go To "Divi Theme Option". Import JSON file by clicking arrow as shown in screenshot below in "Divi Theme Options." and Click on "Import."

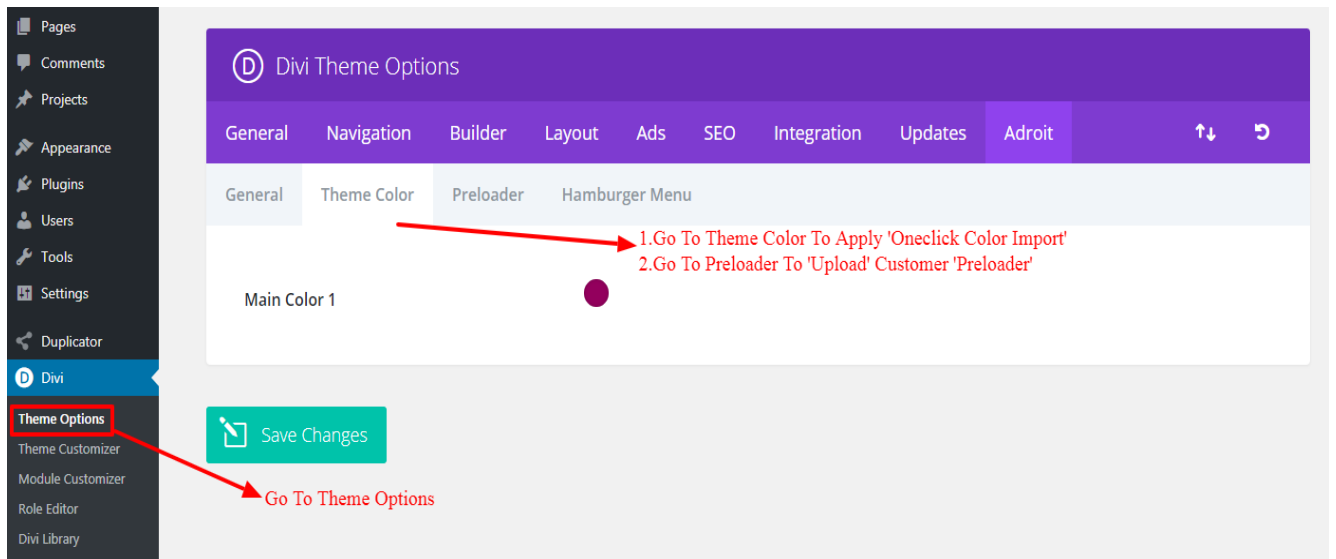

2.FTP uploads installation method:

FTP uploads installation method:

1. Upload ` Divi Parent Theme` & `Adroit.zip` (child theme) to the /wp-content/themes/ directory using your FTP client.
2. Activate the Theme through the `Appearance - > Themes` Menu'
3. Go to the ` Word Press Admin ` and repeat step "1 to 9" above
4. Finally enjoy it.

Apply One Click Color Import :

1. Go To "**Divi Theme Option**".
2. Click on "**Adroit**" and select "**Theme Color**" and apply changes as shown in the screenshot below.
3. Save changes.

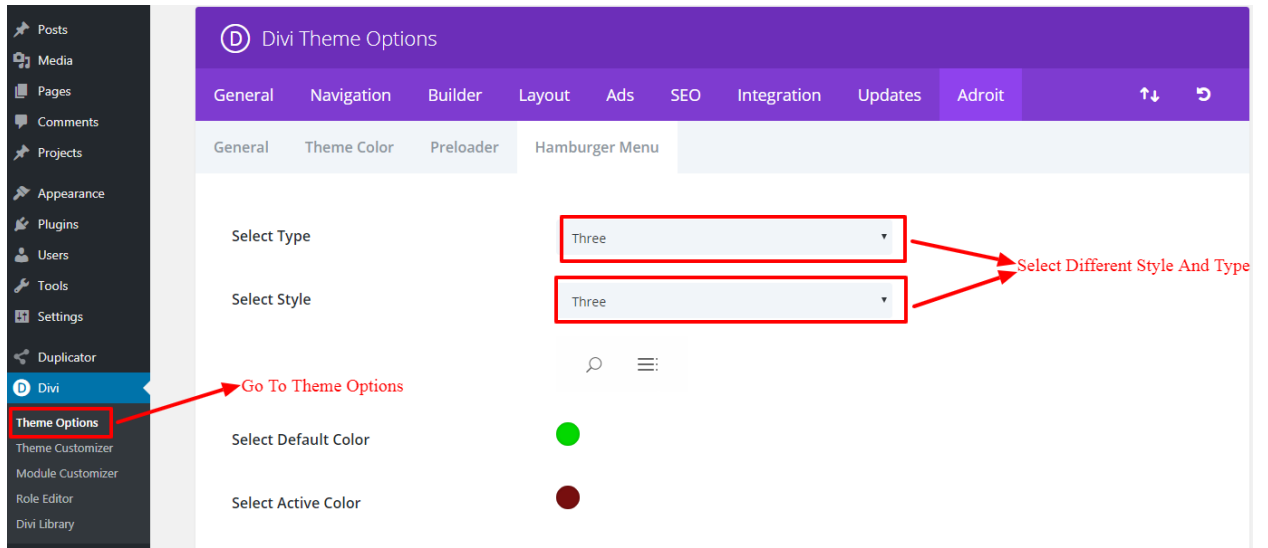

Custom Pre-Loader Option :

1. Go To "**Divi Theme Option**".
2. Click on "**Adroit**" and select "**Pre-loader**". You can upload any custom pre-loader you need apply on your website from the setting.
3. Save changes.

The screenshot shows the Divi Theme Options interface. On the left sidebar, the 'Divi' menu is expanded, and 'Theme Options' is highlighted with a red box. A red arrow points from this box to the 'Preloader' tab in the main content area. The 'Preloader' tab is selected, and the 'Display Preloader On Site' option is set to 'ENABLED'. Below this, the 'Preloader Custom Image Uploader(GIF)' field contains the URL 'http://localhost/adroit/wp-content/uploads/2'. To the right of this field are 'RESET' and 'UPLOAD' buttons. A red arrow points from the text 'Click Preloader To Upload Custom 'Preloader' On Your site' to the 'UPLOAD' button. Other settings include 'Custom Preloader Image Width Size' (200), 'Custom Preloader Image Height Size' (200), 'Background Color' (a color picker), and 'Preloader Effects' (set to 'FadeOut').

Custom Hamburger Menu Option :

1. Go To "Divi Theme Option".
2. Click on "**Adroit**" and select "**Hamburger Menu**". You can select style from available 20 combination style by shuffling option under "**Select Type / Select Style**". You can select "**Color**" from the setting too for your Hamburger Menu.
3. Save changes.
