<https://wordpress.org/about/requirements/>

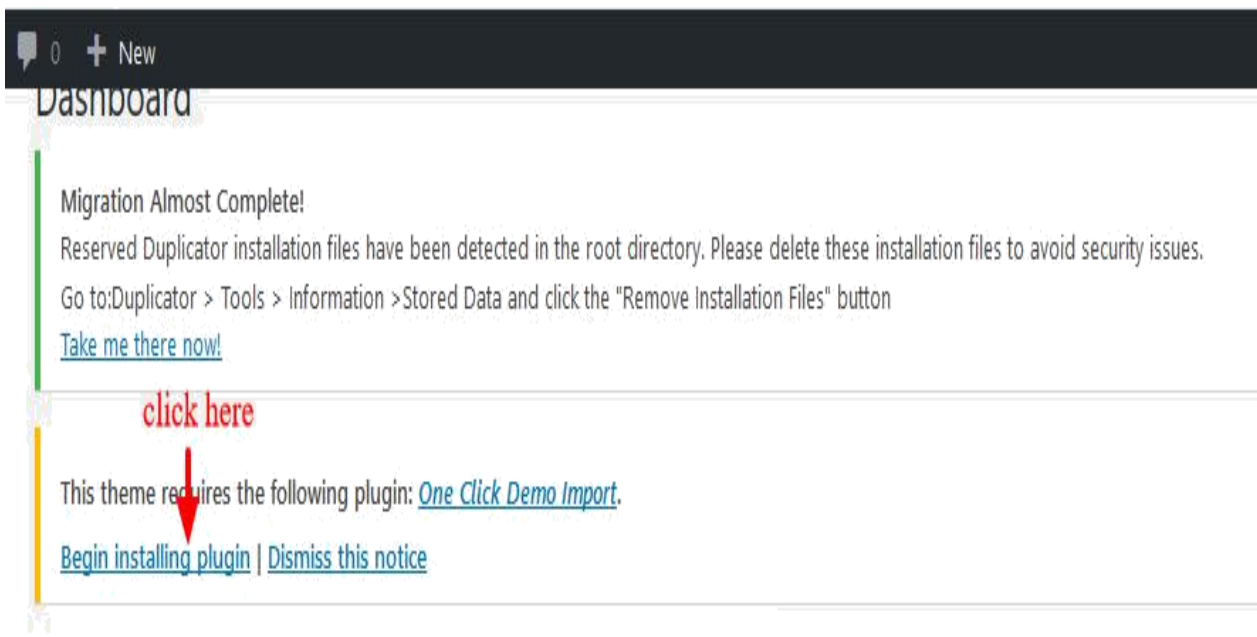

Zip upload installation method (make sure uploads up to 2MB are allowed for your hosting):

## 1. Installation Steps:

1. Login to your Wordpress site administrator panel and head over the Appearances -> Themes
2. Click 'Add New'
3. Choose the 'Upload' option.
4. First Activate Divi Parent Theme By Uploading a copy Available With You.

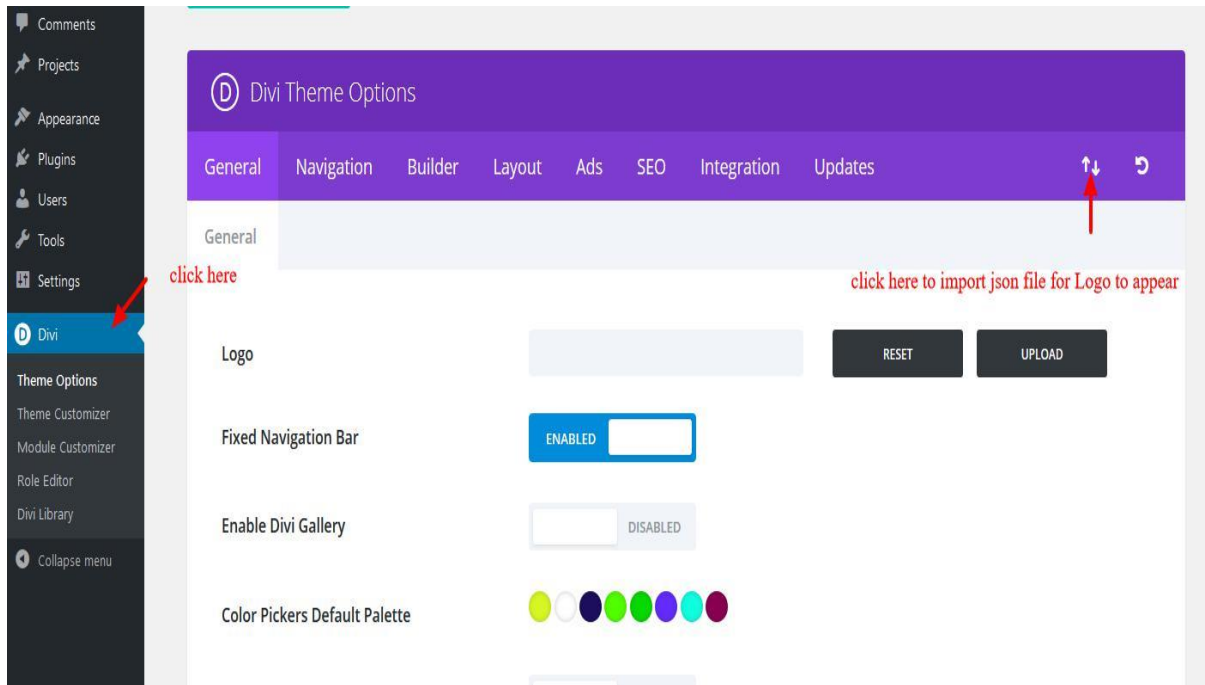

5. Install and activate **Consultant** Child Theme by uploading copy of child theme Zip file available with you.
6. After activating Child Theme at top you will see the notification as ' **begin installing plugin**' plugin name: '**one click demo import**'. Click on that link to install concern plugin.

## Screenshot

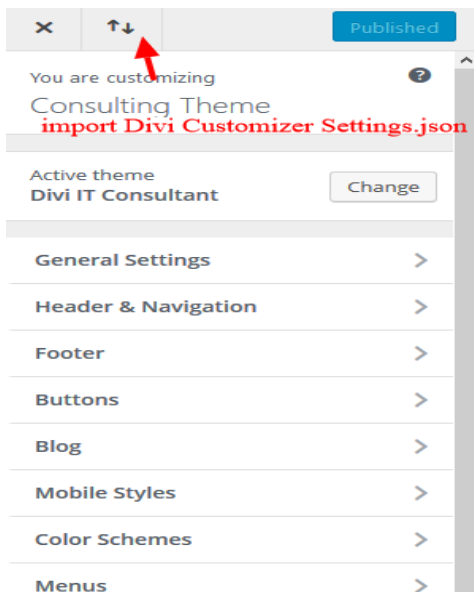

7. Go To "Appearance". Click on "Import Demo Data" and Click on "Import Demo Data" Button. This will import '**Consultant Child Theme**' Content into your site.
8. Go to Appearance > Menus. Assign the menu as the primary menu.
9. Go to Divi and Click on "Theme Options" and set additional settings as per need.
10. To Import Logo You Need Import JSON(**Consultant**.json) File : Go To "Divi Theme Option". Import JSON file by clicking arrow as shown in screenshot below in "Divi Theme Options." and Click on "Import.
11. Go To Appearance > Divi > Theme Customizer > Import JSON file by clicking arrow as shown in screenshot below under "Theme Customizer" Click on arrow and import JSON file "Divi Customizer Settings.json." and Click on "Import.

## A. For Logo

The screenshot shows the Divi Theme Options interface. On the left is a dark sidebar with a menu including 'Comments', 'Projects', 'Appearance', 'Plugins', 'Users', 'Tools', 'Settings', 'Divi', 'Theme Options', 'Theme Customizer', 'Module Customizer', 'Role Editor', 'Divi Library', and 'Collapse menu'. The 'Divi' option is highlighted in blue. A red arrow points to it with the text 'click here'. The main content area has a purple header with 'Divi Theme Options' and a sub-header with tabs: 'General', 'Navigation', 'Builder', 'Layout', 'Ads', 'SEO', 'Integration', and 'Updates'. A red arrow points to a double-headed arrow icon in the 'Updates' tab with the text 'click here to import json file for Logo to appear'. Below the tabs, the 'General' section is active, showing a 'Logo' field with a text input, 'RESET', and 'UPLOAD' buttons. Other settings include 'Fixed Navigation Bar' (ENABLED), 'Enable Divi Gallery' (DISABLED), and 'Color Pickers Default Palette' with a color palette.

## B. Customizer Setting

The screenshot shows the Divi Customizer interface. At the top, there is a 'Published' button and a double-headed arrow icon. A red arrow points to the double-headed arrow icon with the text 'import Divi Customizer Settings.json'. Below this, it says 'You are customizing Consulting Theme'. The active theme is 'Divi IT Consultant' with a 'Change' button. A list of settings categories is shown with right-pointing arrows: 'General Settings', 'Header & Navigation', 'Footer', 'Buttons', 'Blog', 'Mobile Styles', 'Color Schemes', and 'Menus'.

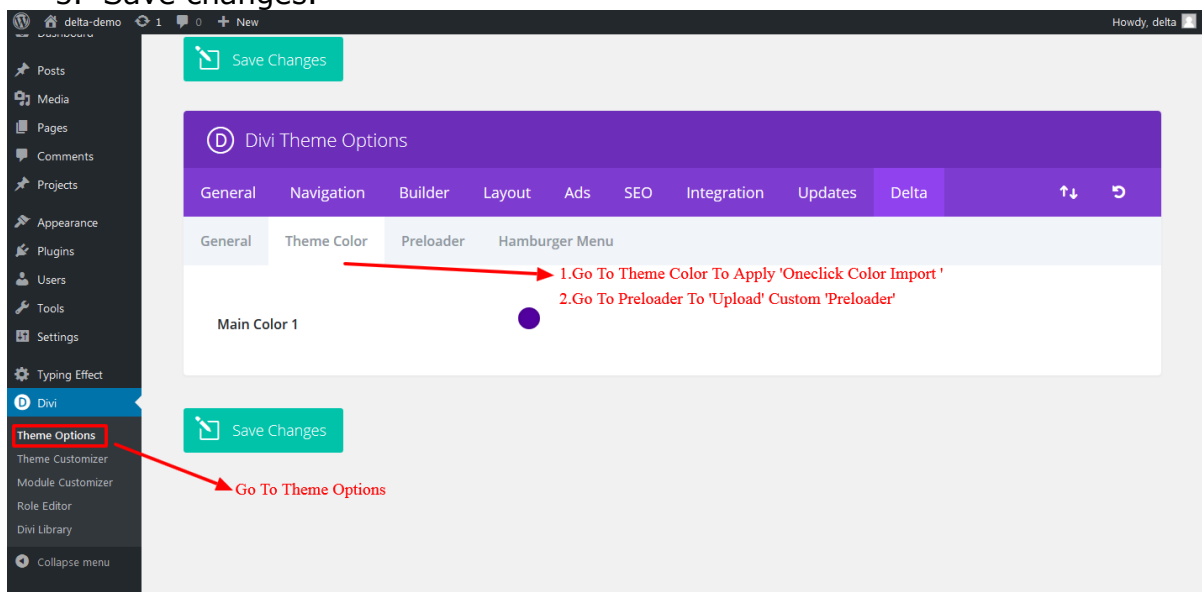

## 2.FTP uploads installation method:

FTP uploads installation method:

1. Upload ' Divi Parent Theme' & **Consultant** ' (child theme) to the /wp-content/themes/ directory using your FTP client.
2. Activate the Theme through the 'Appearance - > Themes 'Menu'
3. Go to the ' Word Press Admin ' and repeat step "1 to 10" above
4. Finally enjoy it.

## Apply One Click Color Import :

2. Click on "**Consultant**" and select "**Theme Color** " and apply changes as shown in the screenshot below.
3. Save changes.

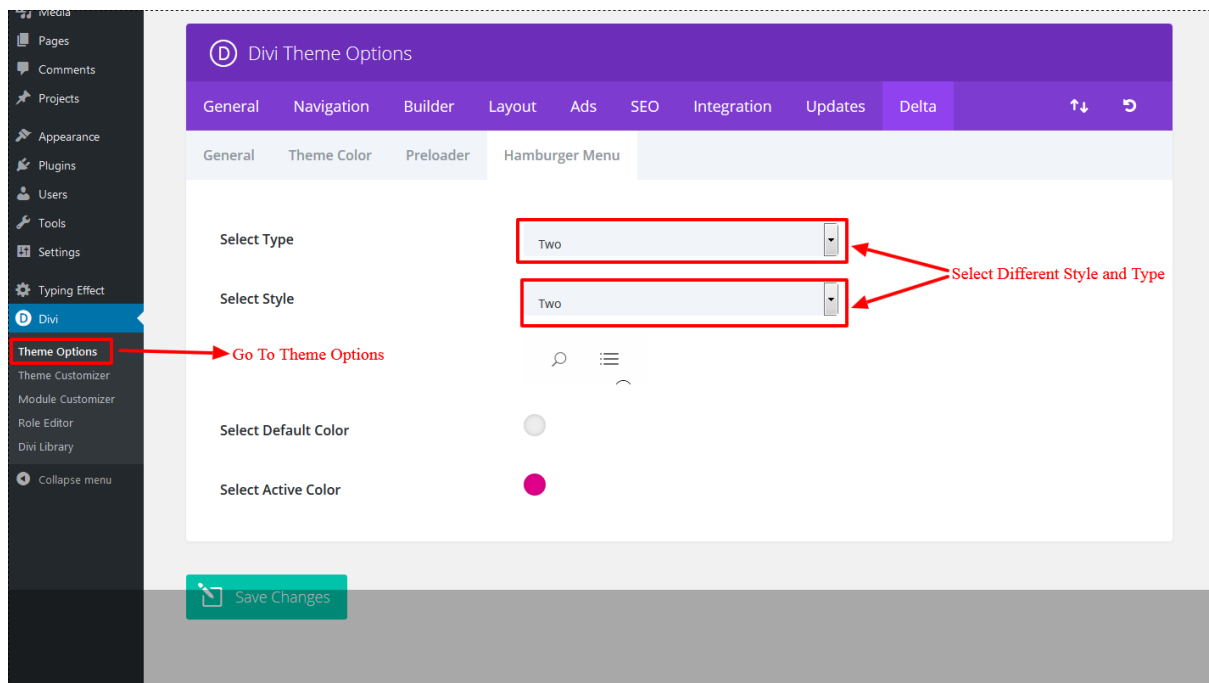

## Custom Pre-Loader Option :

1. Go To **"Divi Theme Option"**.
2. Click on **"Consultant"** and select **"Pre-loader"**. You can upload any custom pre-loader you need apply on your website from the setting.
3. Save changes.

The screenshot displays the Divi Theme Options interface. On the left is a dark sidebar with a menu including Media, Pages, Comments, Projects, Appearance, Plugins, Users, Tools, Settings, Typing Effect, Divi, Theme Options (highlighted with a red box), Theme Customizer, Module Customizer, Role Editor, Divi Library, and Collapse menu. The main content area is titled "Divi Theme Options" and has a purple header with tabs for General, Navigation, Builder, Layout, Ads, SEO, Integration, Updates, and Delta. Below this is a sub-header with tabs for General, Theme Color, Preloader (selected), and Hamburger Menu. The Preloader settings include: "Display Preloader On Site" (ENABLED), "Preloader Custom Image Uploader(GIF)" (with a text input field, a RESET button, and an UPLOAD button), "Custom Preloader Image Width Size" (200), "Custom Preloader Image Height Size" (200), "Background Color" (radio button), "Preloader Effects" (dropdown menu set to FadeOut), "Preloader Fadeout Speed" (dropdown menu set to Fast), "Preloader Delay Time" (500), and "Preloader Body Opacity" (1). A red arrow points from the "Go To Theme Option" text to the "Theme Options" menu item. Another red arrow points from the text "Click Preloader To Upload Custom 'Preloader' On Your Website" to the "UPLOAD" button. A green "Save Changes" button is located at the bottom left of the settings panel.

## Custom Hamburger MenuOption :-

1. Go To "Divi Theme Option".
2. Click on "**Consultant**" and select "**Hamburger Menu**". You can select style from available 20 combination style by shuffling option under "**Select Type / Select Style**". You can select "**Color**" from the setting too for your Hamburger Menu.
3. Save changes.
